

## Intro

I feel sad in the night, without your love, so sad without your smile  
I feel so bad in the night, without your warmth, give us another try  
Nobody compares to you my dear, no other girl really ever will  
Baby please give me a second chance, love you still

Is that the price I've got to pay?  
I'm drowning in tears, I can't stand the pain  
I can't stand the pain - Can't stand the pain

## Verse 1

It's a fact, it's a fact the night you've quitted our love - you took my heart away  
See me cry, see me cry I never thought that it would happen - this way  
There's no way, there's no way to go on living in this world without you - no more  
But I know, but I know that one day you will be knocking at my door - again

## Bridge 1

Yes, I've treated you so bad for so long  
I swear I will change, I know I was wrong

## Waltz 1

I'm asking the wind, what can I do  
To get my love back, yes I was a fool  
To treat you this way, I'm full of despair  
I'm down on my knees, I'm waiting for you, I'm bagging you please

## Verse 2

Is it right, is it true, that you do not want to change - your decision  
Anyway, your my one and only love, and I'm waiting - for you

## Bridge 2

Yes, I've treated you so bad for so long  
I swear I will change, I know I was wrong

## Waltz 2

I'm asking the wind, what can I do  
To get my love back, yes I was a fool  
To treat you this way, i'm full of despair  
I'm down on my knees, I'm waiting for you,  
I'm bagging you please

## Verse 3

Is it right, is it true, that you do not want to change - your decision  
Anyway, your my one and only love, and I'm waiting - for you

## Outro

Yes I've got to be patient, baby I do believe, in a mirracle  
Well I've got to give in, but I never give up, one day you will come back  
Will come back
