## Come On Out

- Verse 1      Come on out, it's late I know,  
but we've no where to go.  
Come on out, let's talk a while,  
let the memories flow
- Bridge 1      It's been, so long since we said a word.  
Tonight, time is on our side.
- Verse 2      Come on out, the night is warm,  
the moon is shining bright.  
There's a star, for you and I,  
let's make a wish to fly.
- Bridge 2      It's been, so long since we said a word  
tonight, time is on our side.  
It's on our side...tonight,  
time is right...tonight...
- Interlude 1      Don't waste it baby, let's get crazy,  
now we're here it seems so real  
we'll lose it babe if we keep waiting,  
we've found heaven under the sky.
- Interlude 2      It's not the problems we'll caress,  
it's not the secret we'll undress,  
it's not the happiness we hide,  
it's not the love that we denied,  
it's not the blindness in your stare,  
it's not the helplessness we share,  
it's you and I.
- Bridge 3      It's been, so long since we said a word,  
so, come on tonight, time is on our side...  
allright
